

House of Hope for Women

House of Hope is a drug rehabilitation center for women of all ages with a true desire to be free of their addictions. This is an in-house, faith based program that teaches women what it truly means to be self sufficient. We have learned that with faith based drug rehab programs the success rate for recovery is often 30 - 50% higher with faith based counseling than without. We teach, train, share, confide and confront women to help them break the ties that keep dragging them back to their addictions and empower them to walk away from the past and never look back. This cannot be done without a solid commitment on their part and ours.

We have a 6month and a 1 year program that is tailored to fit each person depending on their level of addiction and commitment. Drug addictions do not just destroy the lives of those addicted but it destroys the lives of family, friends and sometimes innocent people who just happened to be at the wrong place at the wrong time. We provide a safe and secure environment where they are held accountable by random and frequent drug testing and they learn life skills like communicating with others, literacy improvement, job interviewing skills and they learn how to maintain a household. Training is done on how to cope with life's hard times without returning to drugs. We need your help. Please pray for us, your prayers are very important. Volunteers are always needed and of course donations of any kind are greatly appreciated.
